To whom it may concern,

I have known Michael Rien as a composer for a number of years, and he scored one of my short films, which was featured in official selection at Fantasia Festival 2024.

Michael has a clear passion for music, a strong understanding of storytelling, and an enthusiasm for his craft that made it a joy to work with him. He approaches his work with inspired curiosity and collaborative spirit, and it is clear that he is committed to improving his craft and investing in his musical career.

I heartily endorse his candidacy for the SCGC MP - Mentorship program.

Sincerely,

Heston L'Abbé
